FYI - We think it is time for you to make your calls to Denver City Officials, let us know how it goes and whether we are to continue on our course of issuing the annual letter and a notice to the misc file in the clerk and recorder's office.

Subject: VB-I70 follow up

Martin: The VB-I70 team and I met with Eddie Sierra, Kim Opekar and Michael Wenstrom from ECEJ as follow up to our briefing last week for Jim Martin. Michael was involved at VB-I70 early on and Eddie joined us for a meeting with the Mayor's office and Denver Environmental Health last year. They are familiar with the project and what we're trying to do to close it out. Michael said that we need to emphasize how extraordinary our accomplishment is at this site. He knows how tough it was working with the community and he said the fact that we've reduced a universe of ~4,500 properties to less than 90 is a remarkable achievement. We discussed the potential use of the Denver Equity Forum to help us get greater participation in the final stage of the assessments/cleanups. Eddie believes that the outreach that he did last summer with the Equity Forum is sufficient and that there is no reason to involve them further at this point.

Can you touch base with Jim Martin and let him know that we've done the follow up he requested with EJ and that we believe it is time for him to contact the Mayor's office and Doug Linkhart from Denver Environmental Health? We will begin drafting the "last chance" letter that will go out to the remaining unsampled/unremediated property owners.
